Quercetin Bioflavonoids 100 capsules
70050

Buy

Quercetin and other bioflavonoids extracted from lemon have made up the classical bioflavonoid nutritional supplements. By strengthening the outer cell membrane, these flavonoids may help stabilize cell surfaces, potentially inhibiting the release of histamine. Quercetin may also reduce the production of prostaglandins and leukotrines.*

Each capsule contains:

Lemon Bioflavonoid Complex	400 mg
Quercetin	50 mg
Hesperidin	50 mg
Rutin	50 mg

Other ingredients:
Cellulose, magnesium stearate.

Suggested Use:
As a dietary supplement, 1 or 2 capsules one to three times daily with meals, or as directed by a healthcare practitioner.
