L-Lysine 500 mg 100 Capsules
70600

L-lysine is an essential amino acid, important for the absorption of calcium, the formation of collagen (contained in cartilage, connective tissue, skin, hair and bone) and the production of bone tissue. Free form amino acid, high purity, well tolerated.*

Each capsule contains:
L-Lysine 500 mg
Other ingredients:
Cellulose, silicon dioxide, stearic acid.

Suggested Use:
As dietary supplements, one (1) capsule one to three times per day between meals, or as directed by a health practitioner.
