L-Tyrosine 500 mg 100 Capsules
70630

L-tyrosine is a non-essential amino acid and a precursor to adrenaline, norepinepherine, dopamine and L-dopa. These neurotransmitters are involved with mental function, mood, satiety and response to stress. L-tyrosine is also involved in the production of thyroid hormone and the skin pigment melanin. Free form amino acid, high purity, well tolerated.*

Each capsule contains:
L-Tyrosine 500 mg
Other ingredients:
Cellulose, silicon dioxide, stearic acid.

Suggested Use:
As dietary supplements, one (1) capsule one to three times per day between meals, or as directed by a healthcare practitioner.
