Quercetin 300, 60 capsules
70060

Buy

This formulation incorporates the highest potency quercetin available, derived from a non-citrus hypoallergenic plant source, and stabilized with additional antioxidants so as not to auto-oxidize (degrade spontaneously). The body may use quercetin to strengthen the mast cells, involved in the release of histamine, potentially inhibiting that activity. In addition, Quercetin has been shown to reduce the production of prostaglandins and leukotrines.*

Each capsule contains:

Vitamin C (as Calcium Ascorbate)	75 mg
Vitamin E (as DL-alpha-Tocopheryl Acetate)	70 IU
Quercetin	300 mg

Other ingredients:

Cellulose, magnesium stearate.

Suggested Use:

As a dietary supplement, 1 or 2 capsules one to three times daily with meals, or as directed by a health practitioner.
