Flex-Zyme™

PROTEASE ENZYMES
WITH BROMELAIN & RUTIN
100 Tablets
Enteric Coated
Prod # 23009

USAGE: Take 1 to 2 tablets between meals or as directed by your qualified health consultant. Note: Do NOT chew this product. Swallow quickly with at least one-half glass of liquid.

Flex-Zyme™ is a blend of various vegetarian proteases (enzymes that hydrolyze protein), Serratia peptidase, bromelain and papain combined with other enzymes, and rutin for optimum joint and muscle function. Proteases support joint health by affecting protein turnover in the body, including in joint tissue. The proteases in Flex-Zyme™ are bromelain, papain and Serratia peptidase (from Peptizyme SP®, which is naturally derived from the Serratia bacterium). Bromelain is a protein-digesting enzyme from pineapple and papain is a protease from papaya. Flex-Zyme™ also contains Amla (Indian gooseberry, *Emblica officinalis*) and rutin, for flavonoids that promote tissue repair.

Keep out of the reach of children.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	% DV
Flex-Zyme™ Complex (Proprietary blend of protease, Peptizyme SP® from sp. Serratia, papain, bromelain, amylase, lipase, rutin and amla)	300 mg	*

* Daily Value not established.

Other Ingredients: Dicalcium phosphate, cellulose, stearic acid, modified cellulose gum and magnesium stearate.

Peptizyme SP® is a registered trademark of Specialty Enzymes.
