Aqua Gem-E 200 IU ™

Before vitamin E can be used by the body, it must be absorbed by the digestive system. Vitamin E is a fat-soluble nutrient. Research shows that many people are unable to absorb the full potency of fat-soluble vitamins. AQUA GEM-E is Carlson's natural-source vitamin E, which has been solublizied to blend with water for more complete absorption by the body. Independent studies have shown individuals absorb significantly more vitamin E when it is prepared by the patent pending process used in AQUA GEM-E.
