Pycnogenol® Complex

Antioxidant Formula

enlarge bottle

Pycnogenol Complex combines Pycnogenol® and grape seed extract (Proanthodyn™), potent antioxidants, with other Plantioxidants™ (plant-derived antioxidants) to create a natural, power-packed antioxidant supplement. Plantioxidants are standardized botanical extracts with free-radical scavenging properties. These specialty bioflavonoids may support specific organs. Hawthorn berry supports healthy cardiovascular function, silymarin supports normal liver function, bilberry supports normal vision, and ginkgo supports healthy function of the brain and circulatory system.
