

Calcium Absorption Formula

Particularly helpful for:

- Improves absorption of calcium necessary for strong bones.
- Growing Children (relieves slow teething)
- Pregnant or nursing women (too little, too much milk)
- Periods of additional stress or overexertion, when the calcium absorption and metabolism may be disturbed. Reduces the need for calcium supplements.

Exclusive formula featuring stinging nettle and silica in homeopathic form, combined with tissue salts, which work together to help the body absorb needed minerals.
