IP-6

Inositol Hexaphosphate 800 mg * Supports Breast, Colon & Prostate Cells

enlarge bottle

IP-6 (inositol hexaphosphate) is a component of certain dietary fibers, particularly most cereal grains, legumes, and seeds high in oil. Many researchers believe some of fiber's health benefits may be due to the antioxidant, immune-enhancing, and cardiovascular-supporting activities of IP-6. In-vitro and animal research has shown IP-6 to have significant protective and growth-regulating effects on certain cells and tissues, including those of the colon, breast, and prostate. Source Naturals IP-6 is free of other active ingredients. Only IP-6 in this form has consistently demonstrated positive research results.

Supplement Facts for powder
Serving Size: 1.5 teaspoon

	Amount	%DV
Calcium (as calcium inositol hexaphosphate)	777 mg	0.8
Magnesium (as magnesium inositol	185 mg	0.45
hexaphosphate)
