Vitamin B-12 with 100mcg Folic Acid - 250 Chewable Lozenges

PRODUCT #: 0468
UPC: 733739004680
SRP: $12.99
Where to Buy
Add a Comment

Vitamin B-12 plays a role in the activation of amino acids during protein formation as well as in carbohydrate and fat metabolism. It also plays important roles in nerve sheath and red blood cells formation. Vegetarian formula.

From the FDA's website: "As part of a well-balanced diet that is low in saturated fat and cholesterol, Vitamin B12 may reduce the risk of vascular disease. FDA evaluated the above claim and found that, while it is known that diets low in saturated fat and cholesterol reduce the risk of heart disease and other vascular diseases, the evidence in support of the above claim is inconclusive."
