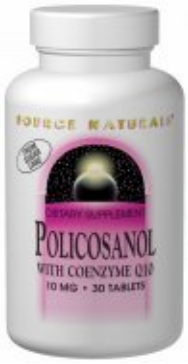
Policosanol with Coenzyme Q10

Cardiovascular Support



enlarge bottle

Policosanol is a blend of compounds isolated from natural plant waxes. Policosanol contains several long chain fatty alcohols, including octacosanol, hexacosanol and triacontanol. Animal and in-vitro research has shown that these compounds may support the cardiovascular system and inhibit lipid peroxidation as well as support macrophage activity. Coenzyme Q10 has been added to this product to promote adequate levels of this important nutrient. Research indicates that CoQ10 levels in the body may be lowered by compounds that work on the same metabolic pathway as policosanol. CoQ10 supports the cardiovascular system and cellular energy production.

Supplement Facts for 10 mg/15 mg

Serving Size: 2 tablets

	Amount	%DV
Coenzyme Q10	30 mg	†
Policosanol	20 mg	†

Other Ingredients: dibasic calcium phosphate, microcrystalline cellulose, stearic acid, colloidal silicon dioxide, and magnesium stearate.

Warning: If taking anti-platelet medication, such as daily aspirin, consult your health care professional before using this product. Not for use by pregnant or breastfeeding women.

Suggested Use: Two tablets, in the evening, for the first three months. Thereafter, 1-2 tablets daily.

10 mg/15 mg SN1451 30 tabs • SN1452 60 tabs • SN1459 120 tabs
