Usage
Chlorofresh is used chiefly as an aid to reduce odor from a colostomy or ileostomy and to reduce fecal odor due to incontinence. Chlorofresh liquid is also a good mouthwash and internal breath freshener.*

Recommended Daily Dosage
Adults and children 12 years of age and over: Take two tablespoonfuls, one to two times daily. If odor is not controlled take an additional two tablespoonfuls per day. The smallest effective dosage should be used. Children under 12 years of age: Consult a doctor before use. For use as a mouthwash, rinse or gargle: Use full strength or add one to two tablespoonfuls of Chlorofresh Liquid to one-half glass of water. Rinse mouth thoroughly and repeat.

The following list is for serving size of 1 tablespoon
