Description
Nature's Way's popular Echinacea purpurea is organically grown by Trout Lake Farm, Washington.

Usage
Echinacea purpurea supports the immune system. It grows wild and was used by the plains Indians more than any other herb. Echinacea is one of the most researched herbs, as its benefits have been shown in many European research clinics.*

Recommended Daily Dosage
Take three capsules 3 times daily with water at mealtimes. After taking Echinacea for six to eight weeks, a two- to four-week break is recommended before restarting use for best results.

The following list is for serving size of 3 capsules

Primary Ingredients	***Amount***	***USRDA***
Echinacea Purpurea (stem, leaf, flower)	1.20 g	0%

Other Ingredients
Gelatin

Quality Issues
Nature's Way Echinacea purpurea is certified organically grown by Oregon Tilth. It exceeds the California Health and Safety Code 26569.22. It is the top-selling single herb. Each dosage provides 1,14

Usage Warnings

Should not be used with known or suspected autoimmune diseases. Theoretically, all non-specific immunostimulatory agents are contraindicated in conditions in which the immune system itself causes disease disturbances of various body tissues. For example

Generally contraindicated in multiple sclerosis (which involves a heightened immune response) and in tuberculosis. Do not use this product if you are allergic to flowers of the daisy family (composite flowers).
