vitamins and SUPPLEMENTS DAVINCI

Since 1973
Recommended By Leading Doctors

L-Carnitine

A dietary supplement to support muscle and cardiovascular functions.* Carnitine is a non-protein amino acid that is biosynthesized in the human liver and naturally occurs in muscle and organ meats. It is intimately involved in the transfer of fatty acids across the membranes of the mitochondria where they can be used to generate energy.

Each caplet contains 280 mg calcium, 250 mg L-Carnitine hydrochloride.

Other ingredients: calcium carbonate, cellulose, silica, vegetable stearate, stearic acid.

As a dietary supplement, take one caplet between meals.

L-Carnitine 2287

2287.6 (60 caplets)
