Trust The Leaf™

Goldenseal Herb

Latin Name
Hydrastis canadensis

Common Name
Yellow Root

Description
Our Golden Seal herb is wild grown in the Appalachian mountains. It contains a guaranteed natural potency of 1.5% total alkaloids.

Usage
Golden Seal is a very important traditional herb. Golden Seal was listed from 1860 to 1926 in the U.S. Pharmacopoeia. It was primarily used for inflammations of the mucous membranes. Native Americans used Goldenseal both internally and externally and also derived a dye from the root. *

Recommended Daily Dosage
Take one capsule three times daily at mealtimes or prepared as a tea. If needed take two capsules four times daily with food for a period not to exceed seven days.

Usage Warnings
Golden Seal causes uterine contractions. Therefore, it should not be used during pregnancy or by lactating women.

Do not use with hypoglycemia or high blood pressure. Extended use of Golden Seal will reduce Vitamin B absorption.

Product Q&A

1. Is the flower included in this product's powder?
   No, the herb is harvested before the plant flowers.

2. Will Golden Seal alter drug test results?
   There is no proof that it will cleanse drugs from the blood. Furthermore, there is no proof that Golden Seal will cover drugs in the system during testing. While rumors are rampant and may be partly responsible for the popularity of Golden Seal root.
