Royal Jelly is among the world's top legendary super-food substances. This exceptional powerhouse is fed exclusively to queen bees. Scientific analysis reveals a broad spectrum of nutrients including minerals, amino acids, enzymes and co-factors. Natural Factors Royal Jelly is freeze-dried to retain important nutrients, and concentrated to ensure potent delivery of healthy constituents. Natural Factors Enriching Bee Factors® family of products includes pollen, royal jelly and propolis. Valued for centuries, these products are now enjoyed by athletes, active people and anyone else seeking energy enhancement and support of general health.* Natural Factors bee pollen is gathered in the pristine Peace River Valley in Northern Canada where fresh, unpolluted air helps create the purest possible pollen. Our bee products are stringently tested for purity and potency and gently processed to retain delicate nutrients. Enriching Bee Factors® — the "Best of the Bees".
(Note: Product has not been fumigated or irradiated).

Suggested Usage:
Take 1 capsule 3-9 times per day.
Warning: Do not use this product if you are allergic to pollen. If you have asthma consult a physician before use.
Contains no artificial preservatives, color, corn, gluten or yeast.
