Immune Protect With Paractin®
30 vegetarian capsules
Item Catalog Number: 955

Immune Protect with Paractin® contains a combination of patented ingredients that have been clinically shown to boost immune function, increasing the body's natural ability to combat challenges.

Immune Protect with Paractin® provides 100 milligrams of a proprietary, patented form of beta-glucan that has been proven to activate the immune system's primary defenders: phagocytes and natural killer (NK) cells. The immune cell-priming capabilities of this patented, highly purified yeast derivative exceed those of all other sources of immune supplements tested to date.

The formula contains Paractin®, an extract derived from an herb that has been used in Asia and India for thousands of years to fight inflammation, and provides significant seasonal support. Among the active ingredients of this medicinal herb are andrographolides, phytochemicals that exert powerful immune-boosting effects on the human body. The formula's patented blend of these andrographolides helps reduce damaging inflammation caused by cytokines, easing symptomatic discomfort and speeding recovery. Only Immune Protect with Paractin® contains both beta glucans and Paractin® to help boost immunity and fight inflammation.

Immune Protect with Paractin® also provides 250 milligrams of a standardized extract of ascorbic acid derived from the most potent source of natural vitamin C: the camu camu berry. The fruit of the camu camu has the highest recorded amount of natural vitamin C--over 30 times that of an orange.

One capsule should be taken daily, especially during the fall and winter months, when immunity is low. The beta-1,3-D glucan complex takes about five days to prime the immune system for optimal protection, so daily supplementation is highly recommended. (To assist recovery, up to 6 capsules per day can be taken as needed on a temporary basis.)

Video: See how this special class of beta glucans naturally primes the immune system

Supplement Facts

Serving Size 1 capsule
Servings Per Container 30

Amount Per Serving	
Vitamin C (from camu camu extract)	50 mg
Beta 1,3-D Glucan Complex [highly purified extract from baker's yeast (*Saccharomyces cerevisiae*)]	100 mg
Camu camu (*Myrciaria dubia*) extract (wildcrafted berry) [std to 20% natural vitamin C (50 mg)]	250 mg
PARACTIN® (Bioactive 14-Neo-Andro Compound) (*Andrographis paniculata*) extract (organic leaf) [patented blend of Andrographilides, 14-Deoxyandrographolides, and Neoandrographolides]	25 mg

Other ingredients: vegetarian capsule (HPMC and water), cellulose, silicon dioxide, magnesium stearate.
This product contains NO milk, egg, fish, peanuts, crustacean shellfish, soybeans, tree nuts, wheat, yeast, gluten, corn, or rice. Contains NO sugar, artificial sweeteners, flavors, colors, or preservatives.

PARACTIN® is a registered trademark of HP Ingredients.

Dosage and Use

- Take one capsule daily with water 30 minutes before a meal, or as recommended by a healthcare practitioner.
- Increase dose up to six capsules daily if needed.
- The highly purified yeast extract has mannan and mannoproteins removed as these can trigger an allergic and inflammatory bowel flare in individuals with yeast allergies, IBD, or Crohn's disease.

Warnings

- Keep out of reach of children.
- Do not exceed recommended dose.
- Do not purchase if outer seal is broken or damaged.
- If you have a bad reaction to product discontinue use immediately.
- When using nutritional supplements, please inform your physician if you are undergoing treatment for a medical condition or if you are pregnant or lactating.
