

Liv-A-Tox®†

(New Color)

Provides a well-balanced combination of nutrients needed for liver function†

Dietary Supplement

Product Numbers: 01259

Product Quantities: 90 Tablets

The liver serves three main functions: 1) it detoxifies the body by filtering out bacterial byproducts, antigen-antibody complexes, and toxic compounds (cholesterol, drugs, pesticides, etc.) from the blood; 2) it produces and secretes bile; and 3) it helps the body metabolize carbohydrates, fats, and proteins. Optimum liver function depends on adequate bile flow and healthy enzyme systems.†

Liv-A-Tox® provides a well-balanced combination of nutrients such as vitamin B_{12}, lipotropic factors such as methionine and choline, which may provide support for normal fat metabolism; and herbal extracts such as celandine, fringe tree, and barberry, which support liver function.†

Product Nutrient Categories: Amino Acid | Fatty Acid | Glandular | Herbal | Mineral | Vitamin

Recommendations: Three tablets daily.

Serving Size: 3 Tablets	**Amount/Serving**	**%DV**
Vitamin A (as retinyl acetate)	4,500 IU	90 %
