Throat Spray

A soothing, healing spray for sore and irritated throats.

Who might benefit from this herbal supplement?

Those with sore and irritated throats due to sickness or over-use; those whose throats are raw and sore from lecturing, yelling, singing, excessive talking, dry air, etc; those with sore throats due to cold or flu. Throat Spray can be used as a preventive measure, i.e. before lecturing, flying on airplanes, contact with sick people, etc, or at the first onset of a respiratory illness. For colds and flu, Throat Spray is a powerful and immediate lung white blood cell stimulant (Osha, Propolis). Phlegm is loosened with Licorice and the lungs are opened with Osha. Thyme is specific for throat infections while Propolis coats and helps create an immune barrier. General immunity is stimulated with Echinacea and Spilanthes. Both of those herbs also increase saliva, which pH corrects the mouth and throat to prevent bacteria penetration. As long as saliva and healthy mucus cover the throat, microorganisms such as Strep and influenza will have a harder time penetrating tissue and moving into the body. Licorice, Aloe Vera and honey help to coat mucosal tissue like the throat as demulcents. Ginger increases blood supply to the respiratory tract to bring in innate immunity and help resolve an infection. Throat Spray may be helpful to athletes, asthmatic and those exposed to high altitudes as Osha will increase oxygen uptake. It is great for high altitude sports. Osha brings blood into the capillaries of the lungs, thus facilitating oxygen uptake via hemoglobin. *Phyto-Tech™ Throat Spray contains the following: Fresh Osha Root, Echinacea angustifolia Root, Propolis, Thyme Herb, Fresh Spilanthes Flower, Fresh Ginger Root, Licorice Root, Aloe Vera, Vegetable Glycerin, Deionized Water, Organic Honey, Natural Flavors (Raspberry and Mint)*

1 fl oz, Alcohol Free Spray, Prod Code: 56957

Suggested Use:
Holding spray nozzle close to the mouth, spray 1-2 times into the throat as needed. Spray more frequently when in need.

WARNINGS:
Do not take during pregnancy or while nursing. Please keep out of the reach of children.

Shake well before using.
