Can cause symptoms associated with cleansing, such as nausea or a slight rash.

Product Q&A

1. How are the Chlorella cells broken?
   The cells are broken during a spray drying process. There is a vacuum pressure differential that takes place as part of this process that causes the cells to break apart.

2. Does Chlorella contain Vitamin A?
   In an assay done January 1994, results report 64,100 I.U. per 100 grams or approximately 32 I.U. per capsule. The RDI for Vitamin A is 5,000 I.U.
