Mushroom Extract Complex

Dual Extraction Blend; A powerful combination of immune enhancing, adaptogenic mushroom extracts.

Who might benefit from this herbal supplement?

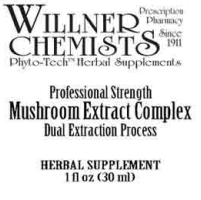
Those with a weakened immune system; those who frequently catch cold or flu; those undergoing chemotherapy; those with serious conditions such as HIB and AIDS.

Many claims are made concerning the immune enhancing activity of various herbs and nutrients. Few such claims are as well documented and supported by clinical evidence as are those surrounding the mushrooms and their constituents. For those in need of immune support, and those suffering from serious health conditions, a mushroom extract should definitely be at the top of the list when it comes to herbal and nutritional support.

Mushroom Extract Complex is indicated for immune deficiency and is considered especially valuable as a long-term tonic. It can be used as a preventative when one either wants to avoid or one already finds they are getting weaker and becoming more prone to getting sick and fatigued. This is especially true when stress is great and immune inundation is heavy. This formula helps when one has debility and lethargy of body, mind and spirit.

Mushroom Extract Complex is a specific for chemotherapy where the white blood cell count and activity (phagocytosis) is impaired or threatened. While the questions of whether or not it is beneficial to take supplementation during cancer treatment remains controversial, the consensus of opinion is moving towards the positive, and the benefits of adaptoglenic and immune enhancing herbs during such treatments is gaining acceptance. Side effects are diminished and efficacy of treatment is actually enhanced. However, it is recommeded to consult with your physician before using products of this type.

These organic mushrooms are a glucoaminoglycan extracts (GAG) whereby the immuno-modulating polysaccharides are first extracted in a water extraction process. The herb then goes through an alcohol extraction process to remove other immuno-modulating compounds that the water cannot extract. The two liquids are combined to create a full spectrum mushroom extract.*Phyto-Tech™ Mushroom Extract Complex contains: Shiitake Mushroom, Reishi Mushroom, Maitake Mushroom, Fresh Ashwagandha Root, Licorice Root, Deionized Water, Pure Grain Alcohol. Dosage: General usage: 20-60 drops, 2-3 times per day or as needed in juice or water. More severe immune deficiency: 60-120 drops 2 times per day in juice or water.*



1 fl oz, Prod Code: 57002
