Suggested Usage: Take 1 to 4 capsules per day, or as directed by your qualified health consultant. Keep tightly closed and away from moisture. Do not refrigerate.

L-Carnitine is an amino acid found in high concentrations in human heart and liver tissue, where it participates in metabolizing fatty acids into energy by the mitochondria.
L-Carnitine also facilitates the metabolism of carbohydrates and enhances the rate of oxidative phosphorylation
L-Carnitine works synergistically with CO-Q10, an antioxidant and energy co-factor that is found in the inner membrane of the mitochondria.
L-Carnipure® L-Carnitine is manufactured by Lonza, the industry leader, offering the finest L-Carnitine in the world.
