N-A-G 750™

N-Acetyl-glucosamine
750 mg per Capsule
Salt Free
60 capsules Prod # 19001
120 capsules Prod # 19002

USAGE: Take 1 to 3 capsules per day, or as directed by your qualified health consultant. Do NOT use if allergic to shellfish.

N-Acetyl Glucosamine is a molecule consisting of an amine (from glutamine) and a carbohydrate (glucose) that has been stabilized by complexing itto an acetyl group.
N-Acetyl Glucosamine is the body's precursor to hyaluronic acid, which is part of the synovial fluid that lubricates joints. N-A-G is produced in the intestinal tract via specialized cells called goblet cells that are responsible for producing your mucin(or mucosal lining).
N-Acetyl Glucosamine is the versatile form of glucosamine for joint and intestinal tissue.

This product is best taken with BioSil™, the only high potency source of orthosilicic acid, the biologically active form of silicon that strengthens joints.

Keep out of the reach of children.
