# Chinese Red Ginseng

***Ginseng is the premier adaptogenic, immune-modulating herb. Chinese Red Ginseng (Panax ginseng) is more "stimulating" or warming than American Ginseng.***

Who would benefit from this supplement? Those suffering from fatigue, burn-out, frequent illness, depression. Red Chinese Ginseng is thought to increase vigor, energy, vitality and resistance to illness and environmental or external stress. It is often the preferred adaptogenic herb for the elderly.

Supplemental Information:

Phyto-Tech™ Chinese Red Ginseng increases vigor, energy, vitality and resistance to illness and environmental stresses. It is best for those who are depleted and are low on passion in life. It is also indicted for those working too hard and are afraid of burn out. Red Chinese Ginseng will increase the stress hormone ACTH from the pituitary that helps the body adapt to stress. When stress is initiating the breakdown on one's innate weakness (genetic, constitutional, predispositional tendencies), Red Chinese Ginseng will help the body to cope and therefore assist in many chronic diseases, especially if debilitating and wasting.

Phyto-Tech™ Chinese Red Ginseng is not for those in their prime of life who are full of fire, the Type-A personality. It is for those who used to be that way and are now not what they used to be. It helps in the aging process to stay alert, youthful, energetic and adaptive to environmental changes. It is immunomodulating and keeps the immune system firing on all levels.

Phyto-Tech™ Chinese Red Ginseng is a tonic for the 21st century with the fast paced life style that creates accelerated wear and tear. It gives more mileage to the body.

Phyto-Tech™ Chinese Red Ginseng should be considered for depression in the elderly who might not be chemically depressed in a St. John's Wort way (serotonin), but need some energy to process life with more passion and enjoyment. It is synergistic with Ginkgo for the elderly.

Phyto-Tech™ Chinese Red Ginseng is a more yang or warming and stimulating ginseng than the American. Eleuthero Root (sometimes referred to as Siberian Ginseng) is not a true Ginseng and is considered neutral, not warming or cooling.

Phyto-Tech™ Chinese Red Ginseng contains 333 mg of imported Chinese Red Ginseng per 30 drops.

Dosage: 15-45 drops, 2-3 times per day It is best used as a long term tonic (1-3 months and longer).

*1 fl oz - Product Code: 57023*
*List: $14.70 ~ Discount: $11.76*

**Suggested Use:**
15-30 drops in water or juice, 2-3 times daily, or as needed.
