Chamomile Flowers

Chamomile is traditionally used for its mild relaxing effect. It calms, sooths and supports the nervous system.

Who would benefit from this supplement? Those with stress, anxiety, stomach upset due to nervousness, and mild insomnia.

Phyto-Tech™ Chamomile Flower is traditionally used as a mild relaxing herb for mild insomnia, anxiousness and stomach upset from nervousness. It is a gentle sedative to the central nervous system and can calm one down. It is best when one wants a gentle relaxing herb to gently help them to sleep or to simply relax during the day. It will not make one sleepy like Valerian can, nor will it reduce pain as well as skullcap. It is suitable for children, those who are very sensitive to sedatives and for the elderly. It is especially soothing in a warm cup of water at bedtime.

Chamomile can be used for digestive upset from nervous eating or overeating. It can soothe upset tummies form overeating junk foods.

It has also been used for teething infants and children who need a little pain relieving action. Dilute amounts are added to water, milk or juice in amounts suitable to the weight of the child. Use 10-20 drops for a 30 pound child, 25-30 drops for a 60 pound child and an adult dose above these weights.

Phyto-Tech™ Chamomile Flowers contains 333 mg certified organic Chamomile in 30 drops.

1 fl oz - Product code: 57067
List: $10.90 ~ Discount: $8.72

Suggested Use:
30-60 drops in water or juice,
