ProstActive™ Once Daily
Prostate Formula
Pygeum, Extract
Zinc

Usage Warnings
Not recommended for use by pregnant or lactating women.

Product Q&A

1. Have any studies been conducted on Saw Palmetto?
   There are over 20 well controlled studies published concerning the uses and effects of Saw Palmetto and Benign Prostatic Hyperplasia (BPH) or swollen prostate gland.

2. Is there a guaranteed potency?
   The encapsulated Saw Palmetto berries have no guaranteed potency. ProstActive is Nature's Way standardized extract of Saw Palmetto berries. This product is commonly called Saw Palmetto or Saw Palmetto extract.

3. How do the encapsulated berries compare with ProstActive Saw Palmetto?
   Saw Palmetto berries in the whole form contain approximately 1%-2% oil or active ingredient. This oil contains fatty acids and sterols that have been closely studied and have shown positive results. The berries are dried and milled and then encapsulated
