Comfrey Root 1:3

Comfrey has been used for centuries as a way to promote healing.

Comfrey is used for burns, surgery, cuts, ulcerations in the gastrointestinal tract (ulcers, ulcerations, bowel surgery), breaks and fractures to bones, for poorly healing bones, and for osteoporosis. Comfrey was so widely used by herbalists to promote more rapid repair of broken bones, it earned the common names boneset and knitbone.

Comfrey is the preeminent herb to promote healing of tissue ranging from skin, soft tissue, broken bones, fractures and it promotes calcium re-uptake into the bones.

Controversy surrounds Comfrey because of its' content of pyrrolizidine alkaloids (PA). This potentially liver toxic substance is in minimal concentration in this dry plant extract (it is higher in fresh plant Comfrey) It is for short-term use (up to 2 months) and does not normally present a problem unless liver pathology exists (see contraindications below).

Phyto-Tecvh™ Comfrey Root 1:3 contains Comfrey Root (Symphytum officinale), Grain Alcohol, Deionized Water. Certified Organic.

Dosage: 20-30 drops, 2-3 times per day or as needed in juice or water

Contraindications and Cautions: Pregnancy; Nursing; Do not use if liver enzymes are elevated of with liver pathology; Do not use over 2 months in a row because of the pyrrolizidine alkaloid content.

1 fl oz - Product Code: 57080
List: $10.90 ~ Discount: $8.72

Suggested Use:
Apply topically as needed.
