Arnica Oil 1:6 Topical

A popular first-aid remedy for trauma, injuries.

Arnica is the pre-eminent remedy for trauma, injuries, and accidents and is a common part of first aid kits and home medicine cabinets. This topical oil is massaged into painful tissue that has been traumatized from an accident, athletic event and overexertion. Massage Therapists and Chiropractors commonly use arnica oil on muscle and joints that are problematic in order to disburse congested fluids in a painful area.

It is thought that Arnica works as a fluid transport stimulating herb. It moves interstitual fluids through ischemic tissue. Ischemic tissue is tissue that has diminished oxygen content because of restricted blood and fluid flow. This action by Arnica on the painful tissue helps it heal and stop the pain cycle. As a result of the increased circulation, cellular waste is removed, bruises clear up, pain diminishes, tissue heals, tissue oxygenates and recovery time is significantly reduced.

Athletes find arnica reduces potential for injury, reduces recovery time from injury and bruising.

Arnica Topical Oil is great for the daily bumps and bruises inevitable in life and especially childhood. It is safe for kids.

Phyto-Tech™ Arnica Oil 1:6 Topical contains the following: Arnica montana Flowers (Wild Harvested), Sage Essential Oil, Extra Virgin Cold Pressed Olive Oil,

Note: First extracted in alcohol and oil to maximize potency, then the alcohol is removed.

Special Note: Most Arnica on the market is "Mexican" Arnica. This is commonly Heterothica inuloides, an adulterant and is not true Arnica. The Vitality Works Arnica products are made from the true European Arnica montana.

Cautions: Do not apply to open wounds, ulcerations or on areas prone to bleeding; Do not take internally; Discontinue use if very sensitive skin results in a rash.

Complimentary Formulas and Single Herbs:

Phyto-Tech™ MuscleGesic, an oral formula for muscle and general body pain, inflammation

Phyto-Tech™ Comfrey Root 1:3 (to promote healing of breaks, fractures, sprains, cuts, lesions)

Phyto-Tech™ Valerian Root 1:2 (for severe pain)

Phyto-Tech™ St. John's Wort 1:2 (if nerves are very sensitive or painful)

Dosage: Massage into effected areas as needed. Repeat 2-3 times per day or as needed.

Arnica works best if applied in full concentration to the problematic area. It is less effective if applied all over the body as massage oil. Use a different oil for a massage (i.e. almond oil) and arnica on the painful area.

1 fl oz - Product Code: 57082
List: $10.40 ~ Discount: $8.32

Suggested Use:
Massage freely on affected areas as needed. Topical use only. Do not use on broken skin.
