Herp Ease Formula

A blend of herbs designed for use during the acute outbreak of any type of herpes infection.

Who might benefit from this herbal supplement?

Those suffering an acute outbreak of genital herpes, cold sores (oral herpes), or shingles (herpes zoster.) While there is no cure for herpes, this formula will help to quiet the attack and reduce the inflammation. The Ayurvedic herb Neem is a very strong anti-bacterial and anti-viral that limits the viral attack. Licorice and Turmeric are strong anti-inflammatory herbs that reduce the outbreak. They limit prostaglandin-induced inflammation. The anti-viral actions of St. John's Wort are being discovered and used for many viral conditions. St. John's Wort is also a nerve ending sedative, which helps in pain. Since herpes lives in the nerve endings and tends to erupt when under stress (stress hyper stimulates the nerve endings), St. John's Wort is of obvious value. St. John's Wort is calming under stress, is a nerve ending sedative and has anti-viral implications. *Phyto-Tech™ Herp Ease Formula contains: Neem Herb, Licorice Root, St. John's Wort Flowers Fresh, Turmeric Root Fresh, Alcohol Pure Grain, Water Pure Deionized.*

1 fl oz - Prod Code: 57099

Suggested Use:
30-60 drops, 2-3 times per day or as needed in juice or water.

WARNINGS:
Do not take during pregnancy or while nursing. Keep out of the reach of children.

Shake well before using.
