Evening Primrose Oil

Hexane Free * 500 mg and 1,350 mg

enlarge bottle

Gamma-linolenic acid (GLA) and linoleic acid (LA) are essential, polyunsaturated fatty acids. They are used by most cells in the body to produce the soothing intracellular hormonelike messengers, known as series 1 prostaglandins (PGE1), that help maintain the balance of many functions in the body. GLA and LA both support the immune system, help maintain healthy skin, and help maintain healthy circulation. These essential nutrients are incorporated into our cell membranes, where they help to maintain fluidity and permeability.

Supplement Facts for 1,350 mg

Serving Size: 1 softgel

	Amount	%DV
Oil of Evening Primrose	1,350 mg	
Yielding:		
Linoleic Acid	877 mg
