L.acidophilus; Food Enzymes:Protease, Lipase, Amylase, and Lactase [155 mg]. The above digestive enzymes help to breakdown proteins, fats, carbohydrates and dairy into absorbable units.[1] *L. acidophilus* is derived from a unique strain selected specifically to adapt to the human intestinal tract. Friendly bacteria may nutritionally assist in the body's normal response to yeast.[2]	Guaranteed stability at room temperature. Does not require refrigeration. Dairy, sodium, yeast, gluten and sugar free. • **Supplement Facts** • **Scientific References** • **Questions & Answers** • **Next Product** • **Previous Product** • **All Probiotic Products** • **Consumer Price List**
