

Grape Seed (PCO) Phytosome™ 50

(50 mg)

Antioxidant supplement 3-7 times more absorbable than unbound extracts†

Dietary Supplement

Product Numbers: 08492 , 08496 , 08497

Product Quantities: 120 Capsules, 60 Capsules, 240 Capsules

Grape Seed PCO Phytosome™ 50 contains procyanidolic oligomers (PCOs) which meet or exceed the quality of Pycnogenol® from pine bark. Studies have shown PCOs from grape seed have more antioxidant activity than those from pine bark. PCOs extracted from grape seeds are the preferred form recommended by health care practitioners in France.

Grape Seed PCO Phytosome™ 50 surrounds the water-soluble PCO molecules with fat-soluble phosphatidylcholine molecules. This combination is easily absorbed and highly bioavailable, so more PCOs are delivered to body tissues.

Product Nutrient Categories: Herbal

Recommendations: Once capsule three times daily.

Capsule Size: 4

Serving Size: 1 Capsule	**Amount/Serving**	**%DV**
Grape (Vitis vinifera) Seed Phytosome™ standardized to contain 95% procyanidolic oligomers (PCOs) from grape seed extract bound to phosphatidylcholine under patent	50 mg	*

*Daily Value (DV) not established.

Other Ingredients: gelatin, magnesium stearate, silicon dioxide, and titanium dioxide color.

Contains No: sugar, salt, yeast, wheat, gluten, corn, dairy products, artificial flavoring and preservatives. All colors used are from natural sources.

Notes: Grape Seed PCO Phytosome™ 50 features a complex between one molecule of a procyanidolic oligomer (PCO) derived from the grape seed and two molecules of phosphatidylcholine (the chief component of lecithin) to form what is called a PHYTOSOME™. The result of this patented process is improved biological activity and 3-7 times more absorption than non-Phytosomes™.†

The PCOs extracted from grape seed support healthy vein and capillary structures.†
