Trust The Leaf™

Melatonin

Description
Melatonin sublingual lozenges without B-6 which may lead to nighttime restlessness if taken late in the day.

Usage
Nature's Way physiologically dosed Melatonin is supported by the latest research as the preferred approach to Melatonin supplementation.*

Recommended Daily Dosage
Adults place to two lozenges under tongue and allow to dissolve. For best results, take just before bedtime. When traveling, lozenges may be taken at the expected bedtime in the new time zone. Continue for several days after arrival and upon return home.
