

Kyo-Green®

Product of Japan

- Organically grown barley grass and wheat grass, Pacific kelp, brown rice, and the treasured green algae, broken cell wall chlorella.
- Tasty, natural source of vitamins, minerals and chlorophyll.
- Two (2) teaspoons provide the nutrients of a serving of deep green leafy vegetables.
- The barley and wheat grass are harvested at the peak of their nutritional value in the fertile Nasu Highlands of Japan.
- Premium chlorella is grown in natural mineral springs.
- The kelp is harvested from the northern Pacific.
- Laboratory analysis confirms product to be gluten free.

- **Kyo-Green's** unique combination works more effectively than any single individual component taken by itself giving **Kyo-Green** an advantage over other products which contain just single ingredients.
- Also available in tablets.

Kyo-Green acts as a **nutritional booster** when added to a healthy dietary regimen.
