Buy

Zinc picolinate is a unique and bioavailable form of the trace mineral zinc. Zinc is essential for more than 30 enzyme reactions that feed into a variety of homeostatic functions. Zinc is located at the active site of superoxide dismutase (SOD), a major protective antioxidant enzyme, and zinc dependent enzymes are involved in growth, immunity, and tissue renewal. Zinc is especially important for male sexual function and prostate health.*

Each capsule contains:
Zinc (as Zinc Picolinate) 25 mg
Other ingredients:
Cellulose, magnesium stearate, silicon dioxide.

Suggested use:
As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.
