GS-500™

(Glucosamine Sulfate)

Shown to help build and support joint cartilage†

Dietary Supplement

Product Numbers: 01780 , 01782 , 01786 , 01787

Product Quantities: 180 Capsules, 120 Capsules, 60 Capsules, 240 Capsules

The body's connective tissue and cartilage include a natural compound called glucosamine. GS-500 is the preferred form of supplemental glucosamine.

GS-500 has many advantages. It's up to 98% absorbable, so more glucosamine reaches the joint structures. Glucosamine sulfate has been clinically studied to build joint cartilage.†

Products such as chondroitin sulfate, shark cartilage and other cartilage extracts are more difficult to absorb than glucosamine sulfate. Glucosamine sulfate has been shown to be up to 98% absorbable.†

Recommendations: Three capsules daily.

Capsule Size: 00

Serving Size: 3 Capsules	**Amount/Serving**	**%DV**
Chloride (from glucosamine sulfate)	234 mg	7 %
Sodium (from glucosamine sulfate)	150 mg	6 %
Glucosamine Sulfate (stabilized)	1,500 mg	*

*Daily Value (DV) not established.

Other Ingredients: gelatin, magnesium stearate, silicon dioxide, and titanium dioxide color.

Contains No: sugar, yeast, wheat, gluten, corn, soy, dairy products, artificial flavoring and preservatives. All colors used are from natural sources.

Notes: Clinical studies show glucosamine sulfate is a key building block for connective tissue and cartilage.† The glucosamine sulfate in our doctor-recommended product is up to 98% absorbable, which makes it more readily available to the body to support healthy articular cartilage.†

Our product is the original glucosamine sulfate product in the United States - the standard by which all the rest are judged.
