Garlinase 4000®

(Smart for Low-Carb Lifestyles
The true one-per-day garlic - Vegetarian)

Maintains healthy cholesterol levels that are already within the normal range†

Dietary Supplement

Product Numbers: 08501 , 08503

Product Quantities: 100 Tablets, 30 Tablets

Garlinase 4000® fulfills the German Commission E monograph (the world-recognized standard for herbal products) with just one tablet daily. This monograph recommends a daily intake equal to 4,000 mg of fresh garlic as found in Garlinase 4000.

Other products may ***claim*** to be one-per-day; however, by fulfilling the German Commission E monograph with just **one tablet**, Garlinase 4000 is clearly the ***true*** one-per-day garlic supplement available in the USA.

The compounds alliin and alliinase are present in separate chambers of the garlic clove. When garlic is ruptured, alliinase interacts with alliin and converts it to allicin - garlic's most beneficial compound. However, allicin dissipates quickly during standard processing techniques.

The patented Swiss process actually prevents alliinase from interacting with alliin until the enteric-coated tablet is well inside your small intestine. At that time, Garlinase 4000 produces a minimum of 5,000 mcg of allicin per tablet-making it by far the most beneficial garlic supplement on the market. This special Swiss process delivers garlic's benefits with **garlic-free breath!**

Product Nutrient Categories: Herbal

Recommendations: One tablet daily with food. **DO NOT CHEW OR CRUSH.**

Serving Size: 1 Tablet	**Amount/Serving**	**%DV**
Garlic (Allium sativum) Bulb	320 mg	*
Extract standardized to contain a minimum of 3.4% alliin (11,000 mcg)		

*Daily Value (DV) not established.

Other Ingredients: cellulose, enteric coating, modified cellulose gum, silicon dioxide, calcium stearate, and titanium dioxide color.

Warnings: This product has a tamper-evident foil pouch. Do not use if foil or plastic is punctured!

Contains No: sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial flavoring and preservatives. All colors used are from natural sources.

Notes: Compare the advantages of this product:

- Maintains healthy cholesterol levels that are already within the normal range†
- Each tablet produces a minimum of 5,000 mcg of allicin
- Patented Swiss process makes it the closest you can get to fresh garlic
- Gamma-glutamylcysteine content is important for the production of alliin
- Swiss process increases the availability of the beneficial compounds ajoene and diallyl disulfide
- Verified by High Performance Liquid Chromatography (HPLC)
