Reduced Glutathione 500
5-HTP
L-Lysine 500
NAC (N-Acetyl-Cystein)(capsules)

Reduced Glutathione 500

60 Capsules
500 mg each
Pharmaceutical Grade
Prod # 15039

USAGE: Take 1 to 3 capsules per day with meal, or as directed by your qualified health consultant.

Reduced Glutathione is an ubiquitous antioxidant involved in many cellular functions such as detoxification, amino acid transport, production of coenzymes and recycling of vitamins E and C. By serving as a critical nucleophilic scavenger, glutathione blocks free radical damage to all types of tissues. Glutathione is the most abundant intracellular thiol (sulfur-containing compound) and low molecular weight tripeptide found in living cells. Thiols such as glutathione, alpha lipoic acid and NAC are powerful sulfur-bearing antioxidants.

Keep out of the reach of children.
