## IP 6

### Inositol Hexaphosphate

▶ [120 capsules 500 mg each Prod # 20011](#)

▶ [100 grams powder Prod # 20013](#)

**Usage:** Take 1 to 6 capsules per day on an empty stomach, or as directed by your qualified health consultant. Do not take with any other nutrient or medication. IP6 is an efficient mineral chelator and therefore should be taken only on an empty stomach.

Jarrow Formulas® IP6 contains 500 mg of purified Inositol Hexaphosphate (IP6) from rice bran extracted in Japan. IP6 is a phosphorylated form of inositol commonly found in fiber-rich plant foods. IP6 may support natural cell defense against damaging hydroxyl free radicals by chelating with reactive iron.

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**
