Methylcobalamin

Methyl B-12

The Superior Form of B-12

Suitable for Vegetarians

Lozenges

Prod # 18001 - 100 count 1000 mcg

Prod # 18004 - 60 count 5000 mcg

Methyl B12 raw materials

Suggested Usage: Dissolve under tongue or chew one 1000 mcg lozenge every 2 or 3 days (or one 5000 mcg lozenge every 3 or 4 days) with a meal, or as directed by your qualified health consultant. Vegetarians typically require B12 supplementation.

Methylcobalamin (Methyl B-12) is **better absorbed** and **retained** than other forms of B12 (such as cyanocobalamin.) Methyl B12 **protects nerve tissue** and **brain cells** and promotes healthy sleep. Methyl B12 is a cofactor of methionine sythase, which reduces toxic homocysteine to the essential amino acid methionine. Methylcobalamin also protects eye function against toxicity caused by excess glutamate.

Keep out of the reach of children.
