Supplements

HerbalKidz AcidophiKidz Tablets

Product No. 7560

A frequently overlooked aspect of good nutrition is the health of the gastrointestinal ecology, and that of children is significantly different from that of adults. Scientists have long known that ingestion of foods containing friendly flora can significantly improve health in a great number of ways. Particularly important to parents is the fact that proper balance of friendly flora enhances the ability of the digestive tract to transport nutrients from the foods children eat to the tissues of their growing bodies.

Bottles of 60 # 7560
