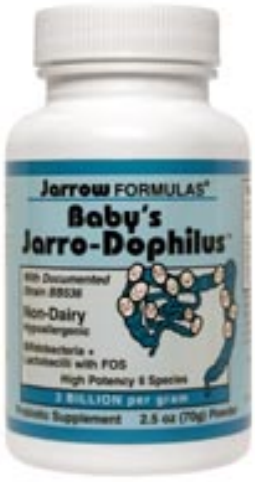
Baby's Jarro-Dophilus™



70.5 Grams/2.5 oz Powder
Bifidobacteria + Lactobacilli with FOS
6 Species
3 Billion per Gram
Prod # 03013

USAGE: Up to age 4, mix 1/4 tsp. daily in water, juice, infant formula or food, or as directed by your qualified health consultant. For newborns, mix into formula only 1/16 tsp per day for the first week. A small amount of powder may also be dabbed on mother's nipple before breast feeding.

Do not feed powder directly to infants.

Baby's Jarro-Dophilus™ contains superior, scientifically documented strains. Clinical studies have documented the benefits of B. breve M-16V and B. longum BB536 (morinaga) in infants and young children. All probiotic strains in Baby's Jarro-DophilusTM produce L+ lactic acid which is especially ideal for babies. The dominant intestinal flora of infants are the bifidobacteria which is why Baby's Jarro-Dophilus™ contains a higher percentage of bifidobacteria than lactobacilli. Baby's Jarro-Dophilus™, a vegetarian formula, also contains Inulin-FOS (FructoOligoSaccharides) to encourage growth of beneficial flora.
Keep out of the reach of children.
