Phosphatidyl Serine 100™ & Phosphatidyl Serine 150™

Supports Cognitive Function

enlarge bottle

Phosphatidyl serine (PS) is one of the key human brain phospholipids and is essential for normal neuron structure and function. PS, along with other essential fatty acids, may also play a critical role in cognitive function, including maintaining concentration and memory.

Supplement Facts for 100 mg

Serving Size: 1 tablet

	Amount	%DV
