0026 HERBASWEET 2 OZ Price Shopping Cart 0 **HerbaSweet®** is an all natural sweetener The new and improved **HerbaSweet®** formula now contains Inulin, a fructo-oligosaccharide known for its prebiotic properties. This great tasting formula has no calories and can be a natural addition to coffee, tea, cereals and for baking and cooking. It is a good substitute for sugar with no artificial after taste. **HerbaSweet®** is a natural sweetener with no saccharin, aspartame or other synthetic ingredients. It may be used successfully in weight loss programs along with proper nutrition and exercise.

Active ingredients Lo Han and Inulin

Lo Han: A squash native to the mountains of China, is known for its multiple health benefits. The Lo Han fruit is roughly 300 times sweeter than sugar and yet has no calories! The active components call triterpene glycosides are responsible for the sweet flavor, but they do not share any of the other properties with sugar. You get the blessing of sweetness without the sins of sugar!

Inulin A fructooligosaccharide (FOS) derived from chicory roots is a prebiotic ingredient. It stimulates the growth of good intestinal bacteria, which support healthy colon conditions. Healthy intestinal bacteria have innumerable health benefits.

Usage instructions: Add **HerbaSweet®** to any food: cold or hot. Sweeten to taste. Use 7 drops of **HerbaSweet®** for every teaspoon of sugar.

270 servings per bottle only
