Note: The results listed below may not be typical. Individual results will vary. NOW Foods has not verified the testimonial statements and has not paid any customer to give testimonials.

"I have used, recommended and sold this formula in my Natural Health Consultants operation for several years. I feel it represents the best value in the nutriceuticals marketplace when a high quality, low cost OPC-bearing (oligomeric proanthocyanidin) antioxidant is needed. Certainly almost anyone could use this material with positive results for nutritionally supporting the body's defense against a myriad of challenges. Always consult your health care professional when starting any new nutritional product or regimen."
