BETA 1,3 GLUCAN

Very Powerful Immune
Modulating and Anti-Aging Substance

Beta 1,3 Glucan (also known as Beta 1,3D Glucan) is a very powerful immune modulating and anti-aging substance. Beta 1,3 Glucan is the empty cell wall of common Baker's Yeast (Saccharomyces ceravisiae) and contains other polybranching 1,4 and 1,6 Glucan fractions. This material is 75% Beta 1,3 Glucan with a total carbohydrate level exceeding 90%. Any Beta 1,3 Glucan exceeding 90% total carbohydrates are considered excellent. This substance is an outstanding free radical scavenger. It protects against all forms of radiation, including any medical radiation equipment, high tension power lines, airline travel, etc. Beta 1,3 Glucan is a potent immune activator, by activating the white blood cell macrophages of the immune system (Pac-Men). It works against all forms of bacteria, viruses and funguses. It is a very powerful adjunct to antibiotics, antifungals and antiphrastic. Beta 1,3 Glucan supports the body's removal of any unwanted debris. Very significantly increases wound healing and tissue regeneration and repair of all types. It has a very anti-neoplastic effect by making the macrophages recognize and destroy mutated cells. Beta 1,3 Glucan will also remove dead cells from the body making way for new cells to form. Beta 1,3 Glucan will not cause a yeast allergic reaction.
