Eurocel

Traditional Herbal Liver Support

Item # 74030
Available in bottles of 180 capsules

Description

Eurocel is a complex of Korean and Chinese herbs that have been used for centuries to support the liver and clear infections and inflammation from the body. Eurocel was used in a two year study on Hepatitis C involving ten patients diagnosed positive for antibodies to Hepatitis C virus (HCV) showing elevated levels of GPT (glutamic pyruvate transaminase) for between three and twenty years. Initial quantitative levels of HCV-RNA ranged from one hundred million to one billion copies per 1 ml serum of patients. Eurocel was taken as a dietary supplement at a dosage of two 500 mg capsules two times daily, between meals. Patients were monitored bimonthly for ALT (GPT) level and virological evaluation of HCV, for the measurement of HCV-RNA, RT-PCR (reverse transcription polymerase chain reaction) was used in patients serum. All patients showed good response and their HCV–RNA levels gradually lowered from one billion or one hundred million to one thousand copies/ml serum during the study. Eurocel was found to be non-toxic even at levels well beyond the therapeutic dosage necessary for humans. No side effects or drug or nutrient interactions were found with Eurocel. However, it is strongly suggested individuals taking Eurocel not consume alcohol, as progress may be adversely affected. Eurocel was stopped after patients exhibited HCV-RNA of one thousand for six months and were tested by ELISA HCV antibodies every 2 months for a period of six months.

Patrinia Villosa – Traditionally used for vitalizing the blood congealed by heat as well as clearing toxic heat. Patrinia has been shown to support the body in the regeneration of liver cells, thereby potentially preventing liver degeneration.

Artemesia Capillaris - Artemesia has been used traditionally for clearing damp heat and clearing jaundice from the liver and gallbladder channels. Artemesia has been shown to be supportive to the body in the regeneration of liver cells, reduction of fever, skin rashes, nausea, edema, chills, viral related liver conditions, for resolving gallstones, lowering bilirubin and cholesterol levels and promoting the flow of bile.

Schizandra fructus - Has been used traditionally to support the liver, kidneys, heart and lungs. Schizandra has been shown to beneficially effect, blood pressure, circulation, viral related liver conditions and SGPT levels (lowering toxic load) and to have a calming effect.

Each 2 capsules contain: **Proprietary blend 1000 mg**
Patrinia villosa
Artemisia capillaris
Schizandra fructus

Suggested Use: As a dietary supplement, 2 capsules three times per day between meals, or as directed by a healthcare practitioner.

Caution: Do not use alcoholic beverages while taking Eurocel. If GI symptoms (related to "die off") i.e. gastrointestinal discomfort, nausea or vomiting occurs, reduce dosage or discontinue use.
