NOW® Brain Elevate™ is scientifically formulated to provide maximum support and nourishment to cerebral functions. Two of its primary components, Huperzine A and RoseOx®, are known for their neuroprotective and antioxidant activity. Formulated with Ginkgo Biloba, Phosphatidyl Serine and Glutamine, Brain Elevate™ is synergistically balanced for optimal results.

From the FDA's website: "Consumption of phosphatidylserine may reduce the risk of dementia in the elderly. Very limited and preliminary scientific research suggests that phosphatidylserine may reduce the risk of dementia in the elderly. FDA concludes that there is little scientific evidence supporting this claim."
