Lactoferrin

60 Capsules
250 mg each
Low Iron Formula
Prod # 21011

USAGE: Take 1 capsule per day with food, or as directed by your qualified health consultant.
Jarrow Formulas® Lactoferrin is freeze-dried. Lactoferrin is a glycoprotein from whey protein. One of the biological activities of lactoferrin comes from its powerful ability to bind iron (300 times that of serum transferrin). Low temperature processing ensures this potency. Digestion of lactoferrin liberates the immune supporting peptide lactoferricin B. Lactoferrin benefits intestinal health by promoting the growth of lactobacilli and bifidobacteria.
Keep out of the reach of children.
