Femaprin is the most widely used supplement for balancing a woman's monthly cycle and for avoidance of periodic discomforts.* Trusted for over 40 years by European health practitioners, **Femaprin's** unique formula combines clinically proven standardized Vitex (Chaste Tree) extract with Vitamin B-6 to help alleviate the bloating, breast tenderness and mood changes associated with premenstrual syndrome (PMS).* Once daily dosage. Standardized to 0.6% agnusides & fortified with vitamin B6.

Dosage
Take one capsule daily with water. Best results are obtained with continuous use.
